

Visit ABN at The Cable Show in DC Booth 625

ABN will be demonstrating its industry leading Open Source Subscriber Service and Network Management System based upon emerging IPDR technology. The Active Resource Manager collects, processes and stores subscriber usage information to provide a subscriber-service-centric view of network and subscriber resource usage. The Active Resource Manager includes applications that provide Subscriber Usage Profiling, Subscriber Quota Management and Network Usage Prediction. ABN will demonstrate its latest version of the Active Resource Manager and will have expert staff available to answer any of your questions relating to IPDR and Subscriber/Service Management.

The Cable Show is being held at the Washington Convention Center, show floor hours are:

- Wednesday, April 1 - 3:00pm - 6:00pm
 - Thursday, April 2 - 11:00am - 5:00pm
 - Friday, April 3 - 11:00am - 3:00pm
- Active Broadband Networks is located at booth 625
